GENERAL INFORMATION

HISTORY AND PURPOSE

Denison was founded in 1831 by Ohio Baptists, and through the one hundred and fifteen years of its life has been known as a Baptist college. From the beginning Denison was built on faith and loyalty and sacrifice. The founders were men of sturdy stock and strong convictions. The ambitious scholastic undertaking of 1831 was called the Granville Literary and Theological Institution. In 1854 this educational enterprise became Denison University. Like the founders, its present leaders seek to maintain a college of liberal arts and sciences of approved standing. Denison continues its cooperation with the Board of Education of the Northern Baptist Convention, but her teaching has never been sectarian, nor has there been at any time any attempt to restrict the student body to members of this denomination.

ACADEMIC STANDING

Denison is accredited by the North Central Association of Colleges and Secondary Schools as a degree-granting institution. It was placed on the Association's first published list of accredited institutions in 1913. It is recognized and approved by the Association of American Universities, the Ohio College Association, the Ohio State Department of Education, the American Association of University Women, and the American Association of University Professors.

The Denison Conservatory is a Liberal Arts College member of the National Association of Schools of Music. In intercollegiate athletics Denison is a member of the Ohio Athletic Conference. The Women's Athletic Association is

a member of the Athletic Federation of College Women, and of the Ohio Conference of Athletic Associations.

LOCATION

Denison University is located in Granville, Licking county, close to the geographical center of Ohio. The village among the Licking hills was founded in 1805 by colonists from Granville, Massachusetts. Situated in a picturesque setting in the western-most foothills of the Alleghenies, Granville has been an educational center for over a century. With its wide, elm-shaded streets the village still retains the charm and traditions of its New England ancestry. It is reached from Newark, seven miles west on Route 16; from Mt. Vernon, twenty-three miles south on Route 661; from Delaware, thirty-five miles east on Route 37; and from Columbus, twenty-seven miles east on Route 16. The Pennsylvania and the Baltimore & Ohio railroads pass through Newark. Connections by bus service may be made with Newark and Columbus and with more distant points through the Greyhound Lines. The American Railway Express maintains an office in Granville.

Granville and Denison are inseparable, both in their past history and in their present day association.

Conveniently located on the principal street of the village is the Broadway Office building, presented to Denison by Mr. and Mrs. Percy L. Wiltsee. It contains the offices of the Secretary of the Board of Trustees and the Secretary of the Denison Society of the Alumni. Visitors to Granville for the first time will find this a convenient place to secure information before entering the campus.

CAMPUS AND BUILDINGS

Nature has given to Denison a beautiful campus. The University owns and utilizes 350 acres of land including many spots of unspoiled scenic charm. On a horse-shoe

shaped ridge, overlooking the village are the principal buildings. At the eastern end are the dormitories for women (Shaw, Beaver, and Sawyer halls), at the west are Fraternity Row and Curtis Hall. Between these areas on the crest of the hill are the academic buildings, the chapel, the library, and the hospital.

Swasey Chapel with its stately tower fitly symbolizes the pre-eminence of the higher life at Denison, just as this lofty tower on the hilltop serves as a landmark to travelers approaching Granville. The building was erected in 1924 and named in honor of the donor, Dr. Ambrose Swasey. The chimes in the tower are a memorial to Mrs. Lavinia Marston Swasey.

Doane Library stands at the head of the academic quadrangle where it was erected in 1937 as a memorial to William Howard Doane from his daughters, Mrs. George W. Doane (nee Marguerite T. Doane) and Miss Ida F. Doane. Mr. Doane, for many years a trustee, gave to Denison its first library building in 1878 and it is most fitting that his name and generosity received perpetuation in this noble expression of filial devotion. Doane Library houses a collection of more than 108,000 volumes and is one of the depository libraries receiving the United States government publications.

Doane Administration Hall was given by Dr. William Howard Doane. This building contains the offices of the president, the deans, registrar, director of admissions, bursar, business manager, director of publicity, and several classrooms.

Buildings devoted to science are Life Science, erected in 1941, the gift of Miss Ida Frances Doane; Barney Science Hall, a memorial to Eliam E. Barney given by his son, Eugene J. Barney; Swasey Observatory given and equipped by Dr. Ambrose Swasey, and Chemistry Cottage.

Other academic buildings are Talbot Hall, so named in honor of Samson Talbot, fifth president of Denison, and

Cleveland Hall, given by friends of the college residing in Cleveland.

The Conservatory of Music is housed in Thresher Hall. This building, on the site of the earliest Baptist Church in Granville, is named for a former professor. Adjoining Thresher Hall is an auditorium known as Recital Hall.

Whisler Hospital is a memorial to Helen Arnett Whisler given by her parents, Mr. and Mrs. Charles F. Whisler. Situated in a sequestered part of the campus, yet not far from other buildings, and thoroughly equipped for its purpose, the hospital adequately serves the needs of the student body.

FACILITIES FOR ATHLETICS

Cleveland Hall contains the main office of the Department of Physical Education for Men, several classrooms, and the Student Union. In this building also are the swimming pool, handball court, wrestling floor, and parallel bar equipment. Across the street is a temporary wooden structure, called the Wigwam, used by the Big Red for intercollegiate basketball. The football gridiron, named Deeds Field in honor of the donor, Colonel Edward A. Deeds of the Class of 1897, occupies a natural amphitheatre north of College Hill. Beneath the stadium are facilities for football players and for participants in track and baseball. Nearby are tennis courts and the baseball diamond. Practice fields for various games are on the north campus.

Doane Gymnasium, the gift of William Howard Doane, contains offices of the Department of Physical Education for Women, gymnasium equipment, and swimming pool. Lamson Lodge, gift of Julius G. Lamson, is a shelter house and recreation room on the north campus. Here is the Badenoch Memorial Library for use of the students in this department. Adjacent are the hockey field, archery range, tennis courts, and riding trails.

A few miles from Granville in the Welsh Hills is an

outing cabin, available to both men and women students for campcraft and similar activities.

RESIDENCES AND DINING HALLS

Curtis Hall, a memorial to Lanson Stage Curtis of the Class of 1896 and given by his mother, Annetta R. Jewell, is a residence and dining hall for freshman men. An additional wing in completion of the original plan is expected to be ready for occupancy in the autumn of 1946.

Rooms for men students are also provided on the two upper floors of Talbot Hall.

Seven fraternity houses and the American Commons Club on or near the campus provide residence and dining facilities for upperclass men. During the war years these were operated by the college for women students.

Women students are accommodated in two groups of dormitories, upperclass women being housed on College Hill. In that unit are Shaw Hall, named in honor of President-Emeritus and Mrs. Avery A. Shaw; Sawyer Hall, named for Charles Sawyer, an early benefactor of higher education for women, and Beaver Hall, named in honor of Mary Thresher Beaver. These are occupied by seniors, juniors, and sophomores, respectively. Nearby Colwell Dining Hall is operated for this unit.

Freshman women occupy a group of residence halls on the lower campus. Included are Stone Hall, named in honor of the Rev. Marsena Stone, a former professor; King Hall, named in honor of a former trustee; Burton Hall, named in honor of the founders of an early school for girls in Granville; Monomoy Place, and Parsons Hall. Meals are served in Shepardson Dining Hall.

For women students who choose to live in co-operative homes, Gilpatrick House and East Cottage are maintained.

CAMPUS LIFE

Denison is a college of liberal arts in which the development of persons takes precedence over all other aims. This point of view requires the college to consider all aspects of a student's development as important phases of his education; not alone intellectual capacity and achievements, but also moral and religious values, physical condition and health standards, vocational aptitudes and interests, his sense of financial responsibility, social relationships, and his aesthetic appreciations.

In addition to a full curricular program, the college, therefore, maintains a varied extracurricular program through which the student may find enriched and balanced living. The religious emphasis finds its expression both in worship and in social service. Cultural aspects are accented by the Art Treasure room, the guest artists brought by the Festival Association, the recitals by the faculty and students of the Conservatory, and productions of the dramatic and musical organizations. Further discussions are held within the Social Studies Forum, the Denison Society of Arts and Letters, and the Denison Scientific Association.

As members of the Denison Community, students are expected to develop standards of behavior consistent with responsible citizenship. While they are held responsible for knowledge of the few specific regulations such as those governing the use of alcoholic beverages and the operation of automobiles which are included in the Denison Student Government Association handbooks, it is assumed that Denison men and women understand in general what constitutes responsible citizenship without extensive regulations governing conduct. Any violation of acceptable standards, therefore, may result in disciplinary action.

CHRISTIAN EMPHASIS

Denison from its heritage and in its present purpose is a Christian college, committed to the objective of *fostering personality developed around Christian principles and ideals*. All students are invited and advised to have an active share in the religious life of the campus. From the academic side Denison provides religious instruction through the Department of Religion and through the weekly chapel service. As an important part of Denison's emphasis on fostering Christian living an organization known as Deni-Sunday sponsors a Sunday morning student meeting in which student problems and needs are discussed. A community service program is carried on wherein students may express their response to community needs. The Young Women's Christian Association offers many opportunities for community service expressive of the aroused social conscience; on the devotional side it sponsors the weekly Evensong and the monthly Vesper services.

Each winter special importance is given to Christian Emphasis Week with addresses and forums by guest speakers. The climax of the week is the communion service in Swasey Chapel.

The *March of Dollars* is the campus expression for tangible assistance to the American Red Cross, World Student Service Fund, Scholarship Fund for foreign students, and an equipment fund for Dr. Mary E. Kirby, a Denison alumna and medical missionary now practising in Assam.

THE LIBRARY IN THE EDUCATIONAL PROGRAM

The Library is the workshop or the laboratory for the student of the humanities and the social studies. It is an extension of the laboratory for students of the natural sciences. Its resources in books, periodicals, pamphlets, government publications, and recordings are made available by their proper organization effected through the applica-

tion of library science. These materials are made easily accessible by opening to the student both the reserved book section and the general book collection in the stacks.

Facility in the use of the library through an understanding of its organization, intelligence in the use of books with respect to curricular and reference needs, are the aims of the informal and formal instruction given by professional members of the library staff to individuals and to groups of students. The educational philosophy of the library service at Denison is to teach the students how to use libraries and their resources for a purposeful and meaningful experience during and after the college years. In accordance with this philosophy, an emphasis in the reference service is on the techniques of finding information and investigating subjects. Individual alcoves in the stacks encourage independent study for honors projects; seminar rooms provide an opportunity for individual and group conferences between instructor and students.

That the library may be an educational instrument in the broadest sense, the student is encouraged to read beyond specific class assignments; the library's resources are interpreted and related to the student's reading interests as well as to his study interests. The Browsing Room stimulates reading along lines of the student's choice. A special collection of the titles representing the outstanding contributions of great minds to western civilization is arranged chronologically by date. This is supplemented by current publications in the humanities. Prints, art objects, books on art, and books as graphic art treasures are on display.

THE CULTURAL LIFE

Many aspects of Denison's curriculum afford varied and valuable contributions to culture in the best sense of the word. In addition to these, others of a more voluntary and expressive nature are presented. In cooperation with the Granville Festival Association a series of concerts and lec-

tures is supported, the students contributing through their activity fee paid at registration. Recent artists in this series have been Cornelia Otis Skinner, Roland Hayes, Joseph Szigeti, Claudio Arrau, Anna Kaskas, Ruth Draper, and Leonard Warren. Lecturers have included Major George Fielding Eliot, Ely Culbertson, and Lewis Browne.

Under other auspices speakers of national reputation are brought to the campus to discuss matters of student interest. Among them have been Mrs. Curtis Bok, Dr. Howard Thurman, Dr. Theodore F. Adams, Dr. T. Z. Koo, and Drew Middleton.

Other opportunities to hear or to participate in the production of good music include the two principal concerts annually, one of which is *The Messiah* by Handel, a traditional performance at Christmas-time for over forty years, and another is the Easter Service. The Engwerson Choral Society, largely made up of students, assists.

A number of faculty recitals, guest recitals, and student recitals are given during the college year. The Denison orchestra offers the opportunity of playing classical and modern compositions under faculty direction.

The men's glee club of forty voices is selected on a competitive basis and the women's glee club of forty-five similarly chosen are important musical organizations. An A Cappella Choir is organized to present special music at chapel services and other academic functions. The Denison band provides a conspicuous and useful part in the musical life of the campus.

Facilities for the study of music are to be found in the Music Library, now a part of the Doane Library and in the Carnegie Set, which consists of a Capehart phonograph and hundreds of recordings. Of great interest is a collection of primitive musical instruments from foreign countries, most of these unusual instruments having been contributed by Denison alumni.

Art exhibits are on display at various times each year, and opportunity for the exhibition of student work is frequently arranged. An Art Treasure collection is now being assembled. Now on display are valuable tapestries, vases, and other *objets d'art*.

The Denison Art Loan Collection has been established to provide framed pictures, etchings, and prints as loans to students for use in their rooms. There are a large number from which to choose and loans may be kept for one semester.

The Society of Arts and Letters provides an opportunity for the presentation of literary and cultural papers. The Social Studies Forum deals with current topics of importance. Oldest among the organizations of this nature is the Denison Scientific Association, established in 1887. The Association publishes the *Journal of the Scientific Laboratories*, founded by Professor Clarence Luther Herrick. Its merit is recognized by learned societies in all parts of the world, many of which receive the *Journal* in exchange for their own publications.

THE DENISON UNIVERSITY RESEARCH FOUNDATION

The Denison University Research Foundation exists to foster and to encourage constructive research in the arts and sciences. It was established in 1942 with a gift from an anonymous donor. The foundation is sponsoring Research Scholarships, the amount to depend upon the need of the student, to be granted to Denison sophomores or juniors who have shown special ability in the field of research. The Foundation is also sponsoring a Commencement Prize for the best thesis submitted by a candidate for a degree with honors.

THE DENISON FELLOWS

The Denison Fellows is an organization of alumni and friends of the College who agree to support Denison with an annual gift of not less than one hundred dollars, and to

whom in return the College offers a relationship of intimacy with Denison which it is hoped will be of large satisfaction to the Fellow. At the present time there are approximately one hundred and forty Denison Fellows.

RESIDENCE LIFE

Denison believes that an important part of college education comes from the experience of group living. To that end the University operates residence and dining halls for men and women. All freshman men are required to live in a college dormitory. All women are required to live in university residences. Ordinarily upperclass men live in their fraternity houses or the American Commons Club, but they may live off-campus in an approved private residence or in a dormitory when accommodations are available. (For information about room rates see page 36.)

The right to occupy a college room is given only to the student to whom the room is assigned and his roommate. There shall be no exchanges of rooms or substitutions of one occupant for another without permission of the Dean of Men or Dean of Women. In case permission is given for a change of room, a transfer charge of \$2 may be made.

Each dormitory is in charge of a head resident who cooperates with the student house council in the social administration of the house. In the freshman dormitories the head resident is assisted by selected upperclass students who serve as junior advisers.

MEN'S DORMITORIES—The rooms are designed for two men with the exception of a few larger rooms which can accommodate three or four men. An ample social lounge, dining hall, recreation room, and a study room are available. Each student is supplied with a study desk, chair and lamp, dresser, bed, mattress, pillow and bedding.

WOMEN'S DORMITORIES—Dormitories on the lower campus are designed for two occupants in each room. Most of the rooms in the uphill dormitories are arranged in suites for three or four

girls, although a limited number of single rooms is available. The rooms are provided with study desks, lamps, chairs, dressers, and small rugs. Single beds, mattresses, and pillows are furnished, but all other bedding, linen and curtains are to be supplied by the student.

Freshman women are assigned to rooms. All other students, upon payment of a room reservation deposit, may participate in a room drawing to select rooms in the order in which they draw numbers.

COOPERATIVE HOUSES—The University maintains cooperative houses accommodating about fifteen girls each, in which the students do all of the housework and prepare the meals. A nominal fee is made for room rent. The cooperative nature of the undertaking reduces living costs materially. Selection of girls for these houses is made on recommendation of the Dean of Women.

HEALTH

Since good health is basic to the student's well being, Denison provides adequate health service through the Whisler Memorial Hospital, the University physician, and three registered nurses. In the hospital clinic prompt and effectual medical attention is available. The physician may be consulted for examination and treatment at specified hours. A trained nurse is on duty at all times.

That students may learn to take responsibility for keeping in condition much health instruction is provided through classroom channels and the Departments of Physical Education. Here will be found adequate programs of training to meet hygienic and recreational needs. Intramural contests in several sports, diversified according to season, have been developed and keen rivalry exists between different groups. The skills and abilities developed in this way build both group spirit and college loyalty.

In administering the dining halls every safeguard for health is employed; the choice of food, the preparation, and the serving are under the supervision of trained dietitians.

STUDENT ACTIVITIES AND SOCIAL LIFE

All Denison students are members of the Denison Student Government Association which guides their activities looking after the interests of the group, yet offering ever-increasing self-direction to the student. The Association functions through the Senate, the Men's Council, the Women's Council, and boards of control in the various fields of student activity such as athletics, debate, dramatics, music, publications, religion, and the social life at the Student Union.

Subsidiary organizations cater to special interests. They contribute to the social and religious life of the campus through the Christian Emphasis program, the community service participation, and the annual *March of Dollars* campaign; represent the athletic interests of men and women; sponsor dramatics and debate activities; and promote music events—both vocal and instrumental. Writing is encouraged through the weekly newspaper, *The Denisonian*; the quarterly magazine, *Portfolio*; and the yearbook, *The Adytum*.

Other cultural interests are expressed in clubs and honor societies devoted to the various sciences, mathematics, literature, political, and international affairs. Some of these groups have become chapters of a national honorary society. (See Academic Honors page 47.)

Seven chapters of national Greek-letter fraternities and the American Commons Club own houses in which non-freshmen may reside. Eight national Greek-letter sororities are established on the campus and maintain chapter lodges for social purposes, not for residence.

ADMISSION

As a means of furthering the aims of the University set forth on page 2 of this catalog, it is Denison's policy to admit only those applicants whose ability and previous preparation give promise of success in college work. Because of limited accommodations in our dormitories and the intent of the Trustees to keep the total registration less than one thousand students, it is necessary to restrict the size of the entering class, including transfer students.

The system of admission to Denison University is selective. The Committee on Admissions chooses candidates each year from the list of applicants for that year on the basis of their fitness for college. In its selection the Committee singles out those who give the clearest evidence of possessing intellectual interest and ability, character, and other qualities of personality that are needed for citizenship in a college community. In judging the fitness of a candidate, the Committee places primary weight upon the student's total record and recommendations. Considered with this are the statements submitted by the candidate covering his extracurricular interests, his plans for college, and his health record. The privilege of membership in a student body thus selected carries with it the obligation of loyalty both to the letter and spirit of the regulations of the college, this obligation resting upon all students from the time of their matriculation.

Children of Denison alumni and members of the Baptist denomination are given special consideration, all other qualifications being equal.

All communications concerning admission, including requests for catalogs, should be addressed to the Director of

Admissions, Doane Administration Building, Denison University, Granville, Ohio. The Admissions Office is open from 8:30 a. m., to noon and 1:30 p. m., to 5 p. m., Monday through Friday, from 8:30 to noon on Saturdays, and at other hours by special appointment. Interviews with prospective students, although not required, are always desirable. Applicants should write to the Admissions Office for information pertaining to the admissions procedure or any phase of it.

ADMISSION OF FRESHMEN

A preliminary application blank is attached as the last sheet in this catalog. On its receipt at the Admissions Office formal application blanks are sent, or they will be mailed on direct request. Applications for September, 1946, should be received prior to April 1, 1946. The following items are to be submitted by the applicant:

1. PERSONAL APPLICATION blank to be filled out completely and returned within two weeks of its receipt.
2. AN APPLICATION FEE of \$5. *This fee is not returnable.*
3. A ROOM RESERVATION FEE of \$50. *This deposit is not required of men who enter as transfer students with sophomore, junior, or senior standing unless they are requesting dormitory accommodations. (See page 37.)* Room reservation deposits are credited on the statements rendered to men the second semester of the freshman year and to women the second semester of the senior year unless such deposits shall have been refunded or forfeited previously. This deposit is not returnable unless written cancellation of the reservation is received by the Director of Admissions prior to July 15 for the first semester and prior to December 15 for the second semester.
4. A CERTIFICATE OF GOOD HEALTH and freedom from contagious and chronic diseases. The forms for this are sent to the student early in June and they must be returned to

the Admissions office before July 15. The student health service requires all entering students who cannot show a good vaccination scar to present a certificate that a vaccination for smallpox has been unsuccessfully attempted within the past year.

5. AN OFFICIAL TRANSCRIPT of the preparatory or high school credits and a statement of rank in the senior class, to be filled in by the principal and mailed by him directly to the Admissions office following the completion of the first semester of the senior year, and prior to April 1. A supplementary report will be requested from the principal at the close of the senior year.

6. CHARACTER RECOMMENDATIONS to be filled in and returned to the Director of Admissions by the high school officer and the minister or other religious leader, prior to April 1. A recommendation from a Denison alumnus is desirable but not required.

ADMISSIONS REQUIREMENTS

Graduation in the *upper half* of the graduating class of an accredited high school or preparatory school and certification of at least fifteen acceptable units are normally required before an applicant may be considered for admission. *A unit is defined as a year's course of study in a given subject, with four or five forty-minute periods of recitation each week.* Two periods of laboratory work are counted as equivalent to one period of recitation. Students may be admitted with twelve units from a senior high school (grades X, XI, and XII) provided that the subjects taken in the senior high school, together with those from grade IX in junior high school, are satisfactory.

Denison does not require that the high school courses submitted by the applicant shall follow a particular pattern. However, thorough preparation in certain types of subject matter provides a highly desirable background for

college work. For this reason it is recommended that courses in the following areas be included in the student's program: *English (3), Mathematics, including Algebra and Plane Geometry (2), Foreign Language (2 in the same field), History (1), Laboratory Science (1). In addition at least three of the remaining six units required for entrance should be in these or related fields.

Occasionally the Committee on Admissions makes exceptions and considers applicants who rank in the *lower half* of their graduating class. Such applicants are *required* to submit a pattern of courses conforming to the minimum distribution outlined in the preceding paragraphs. In addition, they must make satisfactory scores on a series of aptitude and achievement tests. The applicants should make arrangements with a high school teacher or other responsible person in his community, who will agree to administer the tests.

Competition for admission to Denison is now so keen that the presentation of the above minimum requirements is not a guarantee of admission to Denison, but merely an assurance that an application will be considered by the Admissions Committee.

EXCEPTIONAL STUDENTS

As a means of encouragement to the brilliant student, Denison will give consideration to the applications of a limited number of exceptionally well-qualified students prior to the completion of the requirements for graduation from high school. They must have completed at least the junior year in high school or preparatory school. Their records must indicate distinctly superior ability and give evidence of emotional and social maturity. In addition, they must take a series of aptitude and achievement tests in the fields of English, mathematics, natural science, and

* Figures in parentheses indicate minimum number of units.

social studies. Their scores must compare favorably with scores of high ranking members of the last entering class of freshmen. They are required to file all of the usual admissions credentials, including the principal's recommendation that they are capable of doing work at the college level under such an arrangement. Veterans who entered the armed forces after only six or seven semesters of high school should apply for admission to Denison under this program.

The Committee on Admissions will examine with care the credentials of each student applying for admission under this program. Its decision will be based on its evaluation of the applicant's fitness to undertake college work at the time the application is made.

ACCEPTANCE PROCEDURE

An applicant whose record shows that he ranks in the *upper quarter* of his graduating class, and whose application has been completed in all its parts, is eligible for preliminary acceptance upon a basis of grades for seven semesters of high school work. Notification of such acceptance will be made prior to the last week in May. Final acceptance depends upon a satisfactory final school record and a satisfactory medical report. Applicants ranking in the *second quarter* of their high school classes, and those seeking to qualify by entrance examinations, must wait for action on their applications *until the complete high school record is available*. This may mean that acceptance or rejection will be delayed until two or three weeks after high school graduation. Such applicants may be placed upon a waiting list, if accepted, and assigned dormitory accommodations as withdrawals take place during the summer, but they cannot be guaranteed admission. A student whose application has been refused, although he met the minimum entrance requirements, will be considered for the following

year, if he so desires, but only in competition with applicants of that year.

ADMISSION OF VETERANS

Veterans will be admitted on the same basis as other students. *Priority will be given to Denison men whose education was interrupted by service in the armed forces.* Credit may be requested for advanced standing on the basis of military training. Denison allows eight semester hours (Physical Education and undesignated) for basic recruit training, and additional credit is based on the recommendations of the American Council on Education in evaluating military training. Credit for correspondence courses satisfactorily completed with recognized universities, or with the U. S. Armed Forces' Institute is transferable to Denison. Veterans may also be granted advanced standing on the basis of Educational Achievement tests taken in service or at Denison. The Veterans' Counselor will work with the Admissions Committee in admitting veterans.

ADMISSION TO ADVANCED STANDING

Students who apply for admission with advanced standing must file the regular admission credentials required under numbers 1, 2, 4, 5, and 6 on pages 30-31 and in addition must file an official transcript of their college record and a letter of recommendation from a dean of the college or colleges previously attended, together with a letter of honorable dismissal. Women transfer students must also file a \$50 room retaining fee (No. 3 page 30).

Favorable consideration will be given only to applications from students who have maintained an average of at least *C plus* (2.4 point average) in all work done in the college or colleges previously attended. When a transfer student is accepted for admission, he will be given credit without examination in liberal arts subjects taken at a

college accredited by the North Central Association or an accrediting body of similar rank. Classification is based on the number and quality of credits accepted, subject to revision after the first semester in residence. Any of the requirements specified for graduation at Denison and not satisfactorily completed at the college previously attended must be taken during the first semester or first year of residence. Students admitted with advanced standing are expected to meet entrance requirements mentioned above and may become candidates for degrees only after the completion of all specified requirements for graduation and at least one year in residence.

The number of women transfer students admitted is limited by the dormitory space available. Candidates for admission with advanced standing who have been unsuccessful candidates for admission to Denison as freshmen will be expected to present a high record at the college from which admission is sought by transfer.

Students of other colleges who have failed to meet prescribed standards will in no circumstance be admitted to Denison. Official transcripts and recommendations covering all previous college work must be submitted with application for admission. The selection of applicants for admission with advanced standing will be made in July of the year in which entrance is desired.

Tuition	\$175
*Incidental Fee	25
Board	135
**Room	80
Books and Supplies (approximately)	20
	<hr/>
	\$435

Because of advancing food prices and other costs it may become necessary to increase the charge for board to avoid serious loss. The college therefore reserves the right to make such adjustment at the beginning of any semester.

*THE INCIDENTAL FEE covers athletics, publications, concerts, lectures, and dramatic performances; support of student government and certain other student organizations; health service (including hospital care up to three days); library, diploma, and all course and laboratory fees except breakage deposits and typewriter rental; therefore, full-time students are admitted to all intercollegiate athletic events and all regularly scheduled student dramatic performances without additional charge other than federal admission tax. (For hospitalization in excess of three days a charge of \$4 is made for each day. Only unusual medical or surgical costs are charged against the student. This includes calls at student rooms, services of special nurses, or unusual medicines or appliances.)

** RATES for single rooms range from \$100 to \$115 a semester. All dormitory rooms with the exception of

those in Shaw Hall are \$80 a semester. Suites in Shaw Hall range from \$100 to \$110 a person a semester. No room is rented for a shorter period than one semester. The cost of any damage to the room or furniture beyond ordinary wear will be assessed to the occupant.

A room reservation deposit of \$50 must be made with the Bursar before a room is assigned for any college semester. Room reservation deposits are credited on the statements rendered to students the second semester of the senior year unless such deposits previously shall have been refunded or forfeited. This deposit is not returnable except in cases of unavoidable emergency, unless written cancellation of the reservation is received by the Dean of Men or Dean of Women prior to July 15 for the first semester, and prior to December 15 for the second semester. *A request for a transcript of credits shall not be regarded as cancellation of a room reservation unless it is accompanied by definite instructions to that effect.*

The tuition charge covers the cost for nine to seventeen hours of credit for the semester. Students enrolling for either excessive hours or for a part-time schedule should see Registration page 51.

CONSERVATORY FEES

All students paying the regular college tuition will be permitted to take private lessons in the Conservatory of Music in voice or instrumental music at the special rate of \$15 for each hour of credit, provided the total number of hours carried including music does not exceed seventeen.

For Conservatory fees see Music page 88.

PAYMENT OF BILLS

All bills are payable at the Office of the Bursar. To help develop in the students a sense of responsibility and a greater appreciation of the educational opportunities, the

University has adopted the policy of collecting the semester bill from the student. Terms of payment of semester bills call for at least one-half of the net bill within ten days after registration and the balance by November 15 for the first semester and by April 1 for the second semester. Students will not be eligible to attend classes if these payments are overdue. Students will be denied honorable dismissal or a transcript of credits or graduation until all college bills are paid in full.

Students who are called out of college for military service during the semester shall be charged the proportionate amount for tuition, room, board, and fees.

All other students required to leave college within any semester for any reason will receive a refund of the proportionate share of the semester charges for tuition and board but no refund of either room rent or incidental fee.

SCHOLARSHIPS, GRANTS-IN-AID, LOANS, AND STUDENT EMPLOYMENT

The annual income of funds given to the University over a long period of years is available for assistance to worthy students. Such assistance takes the form of scholarships, grants-in-aid, and loans. All awards and work assignments are made by the Committee on Scholarships and Student Employment.

1. HONOR SCHOLARSHIPS

Honor scholarships are awarded only to students of demonstrated intellectual ability in various fields. These awards are made on recommendation to the Committee without application by the recipient.

2. GRANTS-IN-AID

Grants-in-aid should be sought only by students who have difficulty in meeting the expenses of their college education. With the exception of certain designated grants to children of faculty and employees, to children of Baptist ministers and missionaries, and to students preparing for religious work, grants are awarded

primarily on the basis of need and carry with them the responsibility for work assignments.

The applicant must show evidence of academic worth to be considered. Likewise, to continue to receive aid, he must remain in good standing. If for any cause he is placed on probation, his financial assistance is withdrawn during that period.

A regular grant-in-aid cannot be applied directly to the student's bill for college expenses but is withheld until such time in the second semester as the student completes the work assignment accompanying the grant. Accordingly, the grant-in-aid is credited against the bill in direct proportion to the amount earned on work assigned.

Awards for grants-in-aid are made after the applicant has been admitted to Denison and remain in force for one year only subject to renewal on a yearly basis by special action of the committee. As the student's financial need increases or decreases, the committee may add to or subtract from the original grant.

Blanks for the applications may be obtained at any time from the Secretary of the Committee on Scholarships and Student Employment. Renewals are announced on or about May 15.

3. LOAN FUNDS

Loans, available to needy students after the completion of one semester of residence at Denison, may be made to defray expenses specifically pertaining to college education. The applicant is required to furnish information regarding the purpose of the loan, any outstanding obligation to the college and to other sources, the amount of financial aid received from parents or guardians, the total earned yearly toward college expenses, and the amount of life insurance carried. The application, which may be secured from the Secretary of the Scholarship and Student Employment Committee, must be accompanied by a recommendation from the Dean of Men or Dean of Women. The note must be co-signed, ordinarily by parent or guardian.

4. STUDENT EMPLOYMENT

Denison offers opportunity for a number of students to earn a part of their expenses while in college. The Committee on Scholarships and Student Employment will, upon application, assign work through the Office of the Business Manager to a limited number of students, namely, those who otherwise would be unable to meet the full expenses of a college education; those who give evidence of their willingness and ability to do work of value to

the college, such as laboratory assistance, stenographic service, dining hall service, help in the dormitories, or work on the campus, and those who show that they can carry work without injury to their scholastic standing or to their health.

HONOR SCHOLARSHIPS

VICTORY SCHOLARSHIPS each \$350

Full-tuition scholarships will be awarded in 1946-47 to four to six outstanding men who are high school graduates of high intellectual ability and strong moral character and who possess qualities of leadership as shown by their activities in high school, church, and neighborhood groups. The applicant is required to take the Scholastic Aptitude Test (verbal and mathematical) of the College Entrance Examination Board, together with its Achievement Test in English and in two additional fields of the candidate's choice. The candidates will be judged on the basis of the results of the tests and the accepted application for admission. Applicants may be asked to visit the campus for interviews with college officials. *The awards are for four years, but the recipients must maintain a 3.25 grade average, exclusive of credit in physical education and extracurricular activities. Probation for any cause would automatically void the scholarship and make re-application necessary when the probation is removed.*

ADDITIONAL SOURCES OF SCHOLARSHIPS AND LOANS

ACADEMIC HONORS

GRADUATION WITH HONORS

Superior students are advised before entering the junior year that they are honor possibilities. In the senior year such students are permitted to engage in special projects in addition to courses regularly required in their field of concentration, to the extent of three hours of credit each semester. Superior students shall be defined as those whose record during the three semesters preceding their senior year shows at least a 3. average with not less than 3.4 in their field of concentration; and who in addition rank in the upper quartile of the sophomore class in their score on the objective test or tests in the field of their particular interest. In special cases, a department may recommend for honors a student who has not met these requirements. This recommendation shall be presented to the Registration Committee for action.

Honors work shall be recommended by the student's academic adviser and shall be subject to approval by the Curriculum Committee. Honors credit shall be given only when the student has satisfied his adviser that he has completed the project and done work of high quality. Students who earn honors credit and superior rating in their comprehensive examinations shall receive diplomas inscribed with *honors*.

All honors duly earned shall entitle the student to have his name placed upon the records of the University with the statement of the honors which he has received, the fact may be engrossed upon his diploma, shall be announced on Commencement Day, and published in the annual catalog.

GENERAL HONORS

General honors are awarded at graduation only, according to the following standard: Ninety-three or more hours of A grade, and the remainder not lower than B grade. Grades made in Physical Education 111, 112, 211, 212 are not to be counted in competing for General Honors.

ANNUAL HONORS

Annual honors are awarded at the end of each year to the members of each class according to the following standard: Not less than twenty-four hours of A grade, and the remainder not lower than B grade. The total number of hours for the year shall not be less than thirty-two (or their equivalent) except when courses 111, 112, 211, 212 in Physical Education are being taken, in which case the total number of hours exclusive of these courses should be not less than thirty. Grades made in the required courses in Physical Education are not to be counted in competing for Annual Honors. Laboratory or Teaching Fellows whose schedules have to be reduced to make room for their work as assistants may have such reduction considered as part of the thirty-four hours.

For list of Honor Scholarships which are classed as academic honors see page 40.

HONOR SOCIETIES

At Denison several nationally known honorary societies have chapters to give recognition to students achieving goals in certain fields.

The Phi Beta Kappa Society, which was founded in 1776 to recognize and encourage scholarly pursuits, established the Theta of Ohio chapter at Denison in 1911. Annually new members are elected from those students in the senior and junior classes having the highest ranking in scholarship. As a means of encouraging high scholarship among the members of the freshman class, the chapter organized the Phi Society in 1926, in which membership is automatic for students earning at least one hundred twelve scholastic points during their freshman year.

Other honorary societies having chapters at Denison are Omicron Delta Kappa and Mortar Board for Leadership; Blue Key and Crossed Keys for Activities; Eta Sigma Phi for Classical Languages; Tau Kappa Epsilon for Forensics; Pi Delta Epsilon for Publications; Phi Mu Alpha and Delta Omicron for Music; Sigma Delta Pi for the Spanish Language; Orchesis for Interpretative Dancing; Masquers and University Players for Dramatics, and the "D" Association for Intercollegiate Athletics.

PRIZES

THE LEWIS LITERARY PRIZE CONTEST. These prizes were given to the Franklin and Calliopean literary societies by Mr. Charles T. Lewis, former president of the Board of Trustees, and are now

continued by his sons, Howard Lewis and Frank Lewis of the classes of 1900 and 1902, respectively. During recent years the prizes have been given for excellence in extempore speech. Competition is open to men students. Four prizes amounting to \$100 are available.

The award is made by a committee of three, the Dean of the College acting as chairman, from the theses presented by the head of each department as the best piece of research in that department.

THE WOODLAND PRIZES IN CHEMISTRY. J. Ernest Woodland, '91, bequeathed to the University, in honor of his father, William Henry Woodland, the sum of \$5,000 for the establishment of two prizes. They are awarded annually as follows:

One hundred and fifty dollars to the student, in full and regular standing in any course leading to the degree of bachelor of arts, who shall prepare under the direction of the head of the Chemistry Department of Denison University, and present at the end of his or her junior year, the best original thesis on some phase of chemistry in its relation to industrial or everyday life.

Fifty dollars to the student submitting the second best thesis under the same rules as above.

The purpose of these prizes is to stimulate a wholesome interest in the practical applications of the science of chemistry. Students interested in competing for this prize may confer with the head of the Department of Chemistry.

THE FRESHMAN CHEMISTRY PRIZE. A prize offered by the Denison Chemical Society to the student making the best record in Chemistry 111-112.

THE SAMUEL ROBERT SKINNER FRENCH PRIZE. Professor Laurence Hervey Skinner of Miami University, Oxford, Ohio, offers a \$25 prize for excellence in French in honor of his father, a Denison graduate, class of 1895. To be eligible a student must be a senior who has chosen French as his or her major interest. The recipient will be determined by means of an oral examination conducted by the Department of Modern Languages, and designed to select that student who excels in an appreciative understanding and use of French as a living language whether oral or printed, and a sympathetic attitude toward and knowledge of French civilization.

SENIOR RESEARCH PRIZE IN ECONOMICS. A prize of \$25 is awarded annually to the student enrolled in Economics 414 who shall prepare the best original thesis dealing with a significant problem in economics approved by the head of the department. The decision will be made by judges not on the Faculty.

CHI OMEGA SOCIOLOGY PRIZE. The Delta Gamma Chapter of Chi Omega offers a prize of \$25 to the senior woman student who has the highest scholastic standing in the Department of Sociology.

ANNIE M. MACNEILL POETRY PRIZES. Miss MacNeill, associate professor-emeritus, offers a first prize of \$10 and a second prize of \$5 for excellence in the writing of poetry. Manuscripts should be submitted to the Department of English.

THE SIGMA DELTA PI MEDALS FOR EXCELLENCE IN SPANISH. The Denison Chapter of the National Honorary Spanish Society awards two medals to be given to those two students with the best record in elementary Spanish and one medal for excellence in second year Spanish. These medals are the official awards of the American Association of Teachers of Spanish and Portuguese and are offered through the cooperation of the Association.

REGISTRATION

Registration is the formal enrollment in the college and is regarded as an agreement on the part of the student to abide by all college regulations. The three parts in the procedure follow:

1. Preparation of a detailed schedule of courses.
2. Payment of the prescribed fees at the Office of the Bursar.
3. Deposit of a copy of the class schedule in the Office of the Registrar.

For new students sometime in the orientation period is devoted to the making out of individual schedules of courses with the aid of a faculty counselor before acceptance by the Registrar.

NORMAL REGISTRATION

Fifteen hours of academic credit in addition to Physical Education, in the freshman and sophomore years, and chapel credit in all years, is normal. This amount is recommended for most students and is necessary to meet graduation requirements in eight semesters.

REDUCED REGISTRATION

Students who by reason of employment, health or deficient background in certain subjects, cannot carry a normal schedule satisfactorily are advised, and may be required, to carry a reduced schedule of twelve to fourteen hours of academic credit and to plan an extra semester to meet graduation requirements. Without special permission from the

Dean of the College, twelve hours shall be minimum registration for any regular student.

EXCESS REGISTRATION

More than seventeen hours is considered to be *excess* and cannot be allowed except by consent of the Registration Committee, which will act in accordance with definite regulations approved by the Faculty. To register for seventeen hours a student must be in good scholastic standing. *A special petition to the Registration Committee is required for a schedule in excess of seventeen hours, and if granted, a fee of \$12 shall be charged for each registered hour in excess of that number.*

PARTIAL REGISTRATION

Any student who, by special permission of the Registration Committee, takes fewer than nine academic hours a semester, and who will not be a candidate for a degree within a year after such partial registration, shall be considered a *part-time* student. The charge for such a student will be \$12 for each hour of credit plus a \$3 library fee. A part-time student desiring hospital, laboratory, and student activity privileges may make the necessary arrangements with the Assistant Bursar.

LATE REGISTRATION

All students must complete their registration and settle with the Bursar on the days set apart for that purpose. Failure to do so will be counted as *late registration* entailing a special fee of \$5. No student will be admitted to any class later than the third week of the semester.

CHANGES IN REGISTRATION

Ordinarily no changes are allowed in registration after the registration card has been filed with the Registrar. For

every change that is allowed, a fee of \$1 will be charged, unless remitted by the Registrar for satisfactory reason.

DROPPING WORK

Work for which the student has once registered cannot be dropped except by formal permission secured through the Office of the Registrar. A course abandoned without such permission, likewise (under certain conditions) a course in which the student is failing, will be counted as a *failure* and so recorded on the permanent record.

WITHDRAWAL

Students who find it necessary to leave college before the close of a semester must, in order to receive an honorable dismissal, report to the Dean of the College and arrange for official withdrawal.

The college may, whenever in its judgment such action is for the best interest either of the student or of the student body, dismiss or refuse to enroll any student without assigning further reason. Unless there is a serious disciplinary charge against the student, such request that the student not return will not prohibit the college from giving the student an honorable dismissal so that he may enroll in some other institution.

CHAPEL ATTENDANCE

Students are expected to attend the weekly chapel service for which they are given credit toward graduation. Failure to attend the requisite number of chapel periods each semester will result in *no chapel credit* being recorded. Frequent unexcused absences will lead to disciplinary action.

EXTRACURRICULAR ACTIVITIES

To be eligible to represent the college officially a student shall present at least fifteen units of high school work,

twelve of which are academic units, when he enters. If previously registered in Denison, he shall have passed twelve semester-hours of credit and earned at least twenty quality points in the preceding semester.

CLASSIFICATION OF STUDENTS

FOR FRESHMAN STANDING—No student will be classified as a freshman who is deficient in more than one unit of preparatory work.

FOR SOPHOMORE STANDING—All entrance deficiencies must be removed. At least twenty-six hours of college credit and fifty-two points (including the required freshman courses in English and Physical Education).

FOR JUNIOR STANDING—At least sixty hours and one hundred twenty points (including Physical Education 211-212 and all preceding requirements).

FOR SENIOR STANDING—At least ninety-four hours and one hundred eighty-eight points, and all preceding requirements.

COUNSELING PROGRAM

Faculty members selected and trained to serve as counselors advise students during their first two years of college. In the freshman year students of a given counselor live in the same dormitory so that the Counselor comes to know them both as a group and as individuals while they make the transition from school to college.

Orientation to the college regime begun during the week preceding registration is continued during the year as students and faculty plan and evaluate progress together. The Counselor is interested in working out with each one the academic program most appropriate for him in the light of his aptitude and aspiration; he is also interested in a student's attitude, his choices of extracurricular activities, how he allots his time and energy, and how he shares in the routine of college living. The Counselor has at his command the results of various aptitude, achievement and vocational interest tests as well as services of specialists as these may be needed.

By the end of the sophomore year or whenever the student has made a tentative decision on a vocation, the Counselor is replaced by the Adviser in the field of major interest, usually the head of the department. Because the choice of a field of concentration is closely allied to the vocational plan, it is appropriate that his guidance concerning his last two years as well as his post-college plans and placement should be under the direction of the Adviser in his major field.

TEACHER-PLACEMENT

The Department of Education maintains an appointment service to assist graduates in seeking first teaching positions and in transferring to better positions upon evidence of successful experience. The service is without cost to either candidate or employer.

COUNSELING FOR VETERANS

Denison is approved by the Veterans' Administration for training given under PUBLIC LAW 346, *known as the G. I. Bill of Rights*, and for veterans who are being rehabilitated under PUBLIC LAW 16, both enacted by the 78th Congress. All matters pertaining to veterans' affairs at Denison are centered in the Office of the Dean of Men who is the liaison representative to the Veterans' Administration. He will counsel with veterans and assist in supplying information pertaining to enrollment and other matters of interest. (For credit allowed see Admissions page 34.)

THE PLAN OF STUDY

Denison offers a plan of study designed to give the student a *broad general knowledge essential to a liberal education, and more specialized knowledge and skill in a field of particular personal and vocational interest.*

This plan allows the student a wide range of choice under the guidance of teachers and administrative personnel. (See Counseling page 54.)

The regular undergraduate plan of study extends through four academic years and leads to a bachelor's degree. Students who satisfy the following requirements will receive the degree, *Bachelor of Arts*, except that students who major in one of the natural sciences, (astronomy, biological science, chemistry, geography and geology, mathematics, psychology or physics) may, if they wish, receive the degree, *Bachelor of Science*. To secure either of these degrees the student must at present satisfy the following conditions:

1. He must meet the *specified requirements*;
2. He must meet the requirements in his *field of concentration*;
3. He must carry a sufficient number of *elective courses* to complete a total of one hundred twenty-eight semester hours' credit;
4. He must meet the *group requirements*;
5. He must pass a *comprehensive examination* in his field of concentration;
6. He must show proficiency in *English*; and

7. His work must conform to certain *scholastic requirements*. (For degree of bachelor of music see page 62.)

A semester-hour of credit is defined as one hour a week of lecture or classroom work, or two or three hours a week of laboratory work, through one semester of eighteen weeks.

1. SPECIFIED REQUIREMENTS

A. English, one year or its equivalent.

B. Physical Education, (a) women: two years, taken in freshman and sophomore years; (b) men: one to three years, taken in freshman and succeeding years (see description of requirements on page 92.)

2. FIELD OF CONCENTRATION

Students who wish to specialize in a particular field will be expected to do from twenty-four to thirty-six semester-hours of acceptable work in the department concerned. For those who wish to concentrate in a general field, rather than in one department, a minimum of thirty-six semester-hours shall be taken from two or three closely related departments, with not less than fifteen semester-hours, ordinarily in sequence, in one of these departments.

The head of the department concerned shall be the adviser of those students whose field of concentration is within one department. An appropriate faculty representative will be appointed for each student whose field of concentration crosses departmental lines. Such appointments will be made by the Dean of the College.

3. ELECTIVE COURSES

The remainder of a student's college course shall be devoted to courses of study offered in other groups, so as to bring the total number of semester-hours up to a minimum of one hundred twenty-eight. For student and adviser the constant aim in choosing such courses shall be to develop

a well-rounded and balanced personality. Lack of acquaintance with a particular subject or field constitutes a strong reason for undertaking rather than avoiding its study.

4. GROUP REQUIREMENTS

A	B
<i>Language and Literature</i>	<i>Social Studies</i>
English (except 111-112)	Economics
Classics	Education
Greek	Government
Latin	History
Modern Foreign Languages	Philosophy
French	Psychology

C	D
<i>Natural Science and</i>	<i>The Arts</i>
<i>Mathematics</i>	Art
Astronomy	Music
Biology	Theatre Arts
Chemistry	
Geology	
Mathematics	
Physics	

For all students the *minimum requirements* are *A—twelve hours in Language and Literature* with the understanding that not more than three hours in *Speech* may be included (students who contemplate graduate study are reminded that they are expected to develop a reading knowledge of at least one modern foreign language, and that graduate schools usually require two foreign languages for

advanced degrees); B—*twelve hours in Social Studies*, not all of which may be taken in one department; C—*fourteen hours in Natural Science and Mathematics*, not all in one department and including a one-year laboratory course in a science (students who qualify for teaching certificate are permitted to meet Group C requirements in one department); and D—*three hours in the Arts*.

5. COMPREHENSIVE EXAMINATION

Merely passing a certain number of courses, no matter how carefully they may have been integrated, is not sufficient evidence that the purposes of four years of study have been realized. A final comprehensive examination is necessary to judge the ability of a student to correlate his knowledge for effective use. Consequently, toward the end of his senior year, the student shall take an examination covering all his work in his field of concentration. This may be accompanied, at the discretion of the department or departments concerned, by a recital, thesis, project, or an oral conference. These examinations must be passed if the student is to graduate.

The comprehensive examination will be arranged by the adviser with whom the student worked out his pattern of studies. This adviser shall be responsible for arranging the general nature and content of the examination, in consultation with other teachers involved.

6. ENGLISH REQUIREMENT

No student will be graduated who fails to demonstrate the ability to express himself satisfactorily in written composition. A student shown to be deficient in English (either by a grade lower than C in English 111 or in practice as reported by two or more teachers) shall be notified at the beginning of his junior year that before graduation he will be required to pass tests submitted by the faculty committee on English usage.

7. SCHOLASTIC REQUIREMENTS

All credits to be counted in the field of concentration must be C grade or better. By the close of the semester previous to graduation, the candidate for a degree must have earned at least one hundred ten semester hours' credit at graduating rate, and must have paid all university bills.

The student's class work is graded as follows, with the accompanying point value for each grade:

- | | | |
|---|------------------|---|
| A | <i>Excellent</i> | Earns 4 points for each hour of credit. |
| B | <i>Good</i> | Earns 3 points for each hour of credit. |
| C | <i>Fair</i> | Earns 2 points for each hour of credit. |
| D | <i>Passing</i> | Earns 1 point for each hour of credit. |

I *Incomplete*. This grade is given when a student is justly entitled to an extension of time for the completion of his course upon recommendation of the instructor and approval of the Dean of the College. Such a grade may be changed to any one of the five other grades listed when reported by the instructor. *An Incomplete must be removed not later than the middle of the next semester in residence.*

F *Failure*. No credit is given unless the course is repeated in class and satisfactorily completed.

For graduation, students must present one hundred twenty-eight semester-hours of credit with a cumulative grade average of at least C. This is interpreted to mean that the entire cumulative record, considering all hours attempted whether passed, repeated, incomplete, deducted or failed must show an average of at least two quality points for each hour of credit attempted.

A student whose cumulative grade average (as defined above) at the end of any semester is below C is placed on probation. He may continue during the next semester on probation with a limited schedule to be determined by the Registration Committee and the student's adviser. *During this semester he must make at least C average or, at its*

close, discontinue his registration. He will remain on probation until his cumulative grade average is again at least C.

After the lapse of at least one semester, a student dropped for low scholastic standing may present a petition for readmission to be considered by the Registration Committee. Favorable action by the committee can be expected only when the student presents evidence of having made successful efforts during his absence to improve his standing.

TEACHING CERTIFICATE

Any student may secure a teaching certificate providing he obtains at least fifteen semester-hours of credit in three teaching areas and completes twenty-four semester-hours of professional education including both General and Educational Psychology. For certification in special areas, as Music, Physical Education, and Art, consult the heads of the respective departments and the head of the Department of Education.

SPECIAL STUDIES FOR SUPERIOR STUDENTS

In addition to honors studies which may be undertaken by superior students in the senior year (see page 46), outstanding students in the junior and senior years may arrange with a teacher and the Dean of the College to register for special directed-study courses. These courses are planned to permit study of a subject of particular interest to the student but not treated extensively in a regular course.

COMBINED ARTS-PROFESSIONAL COURSES

Students who can afford the best possible preparation for professional careers will normally complete their undergraduate work in the regular way, and enter upon their professional training after having received the B.A. or B.S. degree. In many fields this is required; in others professional

studies are open to students who have not completed the full undergraduate course.

To accommodate students who, for good reason, desire to shorten the time required to secure a professional degree, Denison awards the bachelor's degree under certain conditions upon the successful completion of the first year in a recognized school of engineering, law, medicine, or graduate school of nursing. To qualify for this privilege a student must successfully complete all the specified requirements for graduation at Denison with a total credit of *ninety-six semester-hours at the graduating rate of two points an hour or better*. He must also successfully complete all the specified requirements for admission to a school of engineering, law, medicine, or graduate school of nursing, approved by the Denison faculty. Students who meet these requirements become candidates for the Denison degree in *absentia*.

On the basis of three years of work at Denison, and two years at an approved college of engineering, the successful candidate will receive a Denison degree and a degree in engineering. Similarly, a student interested in law may earn a Denison degree and a degree in law in six years; in medicine in six years; and in graduate nursing in five years.

Reshoot follows

DIPLOMAS IN PERFORMANCE

Diplomas in Applied Music are granted to those, fulfilling the requirements as outlined for a degree in music, who, upon recommendation of the Conservatory faculty, present a public recital in their senior year.

CURRICULAR REVISIONS BEING ADOPTED

The faculty is studying and is in process of adopting curricular revisions designed more adequately to meet the needs of students with respect to the broad general knowledge essential to intelligent citizenship. The new plan of general studies will be announced at a later date and will not necessarily affect the registration of students entering in September, 1946. Students who enter before the new plan is officially announced will be graduated when they meet the requirements stated above. They will have the privilege, however, of substituting some of the new courses in fulfillment of the present group requirements if they wish. The new plan will limit to some extent the present wide range of electives in favor of certain general courses in such areas as oral and written English, the forms of literature (studied in a foreign language or in English), the forms of the fine arts, the history of civilization, the social and economic principles of contemporary society, the principles of formal science, biological, psychological, and physical science and leading philosophical and religious ideas of western civilization. The new plan will not affect the student's opportunity of specializing in preparation for his future vocation. In his special field, a student will substitute regular introductory courses for the general course in that field.

DEPARTMENTS AND COURSES OF STUDY

The departments of instruction are presented in alphabetical order. Courses offered are listed with the descriptive title and semester-hours of credit. PHYSICAL EDUCATION FOR MEN

MR. LIVINGSTON, MR. JENKINS, MR. WELBAUM

Credit amounting from two to six hours in this department is required for graduation. This is met by courses and physical fitness tests during the freshman, sophomore, and junior years.

A major sequence of forty hours includes Biology 201-202. Students completing all the courses are qualified for positions as supervisors and special teachers of health and physical education

in high schools, providing they have the necessary credits in Education. A minor requires eighteen hours of credit. However, a voluntary service men's sports program is open to election. The work will be supervised and graded; one credit each semester may be earned but not more than six credits in Physical Education shall be applied toward graduation.

REQUIRED COURSES AND PHYSICAL FITNESS TESTS

Following the required health examinations of the orientation period and subsequent classification of students, registration is held for the required work in Physical Education. Four clock-hours each week yield one semester-hour of credit.

Students who pass the physical fitness tests at the end of the freshman year are exempted from class attendance for a semester at a time, if they are able to pass the fitness tests at the end of the preceding semester; thus, each student assumes the responsibility of keeping himself physically fit. PHYSICAL EDUCATION FOR WOMEN

MISS BARR, MISS HOUSTON, MISS TURNELL

REQUIRED COURSES

Physical Education is required of all freshmen and sophomores three periods a week, each course earning one hour credit each semester. Any application for exemption from the requirement must be made through the Office of the Registrar.

111-112. FOR FRESHMEN. One hour in Orientation of Physical Education and two hours elected from such activities as archery, badminton, baseball, folk and tap dancing, the modern dance, golf, hockey, horseback riding, tennis, track and field, swimming, volley-
ball, winter sports, apparatus, and tumbling.

Three clock-hours, arranged, 1 credit-hour each semester.

211-212. FOR SOPHOMORES. One hour in Outing Activities and Indoor Recreational Games. Two hours elected from activities as listed above with emphasis on advanced work.

Three clock-hours, arranged, 1 credit-hour each semester.

Majors or minors in the department may receive two hours of credit each in courses 211 and 212 by taking twice the amount of work subject to the approval of the department.

ELECTIVE COURSES

Advanced courses are offered for the benefit of those students desiring to become teachers of physical education, or to combine such activity with the teaching of other subjects. They are also arranged to meet the needs of those who desire familiarity with the problems of physical education as a part of their equipment for community recreation, Girl Scout work, camp leadership, and other modern leisure-time agencies.

To qualify as full-time teachers of physical education in secondary schools, students must complete the following courses for forty hours of credit, including certain science requirements stated below as prerequisites. A minor in this department requires twenty-two hours of credit but this includes four hours of credit for 211-212 which is a general university requirement. Therefore, in addition to general requirements, the minor demands eighteen hours of work.

These are the minimum requirements of the State Department of Education. Biology 111-112, 211-212 are science prerequisites for all majors. Biology 111-112 is recommended, but not required for minors.

For majors there are three groups of courses listed below. One group should be taken in each of three years. Minors must take the first two of these groups of courses:

MUSIC CURRICULUM

THEORETICAL STUDIES

Courses in the theory and history of music will be found listed in detail under the Department of Music in the regular list of college courses in this catalog, page 48.

APPLIED STUDIES

Proficiency in one of the following departments is a requirement for graduation. To secure the Conservatory diploma the work must be concluded by a public recital. If formal study is substituted for the recital in the senior year, and the student shows evidence of the ability to teach his major subject, a certificate is granted. When violin, voice, viola/cello, etc. are selected as majors, piano must be taken as a course until the student is able to play piano music of the third grade of difficulty. If this work has been completed before entrance, credit will be given upon examination.

The number of years required to complete the work in any applied study depends entirely upon the student's ability and previous training. Frequent opportunity will be given to the student to ascertain his standing by examination. In general, these examinations consist of technical demonstrations, the performance of prepared compositions from memory, and the playing of one selection prepared without the aid of the teacher.

PIANOFORTE

It is the aim of the Department of Piano to study the individual needs of each student. In accordance with this policy, students are accepted for private lessons only.

Especial attention is paid to the laying of careful foundations in technical work. Modern principles of relaxation and of good tone production, in accordance with natural laws, are emphasized. Facility and velocity are sought, but the importance of an artistic interpretation is placed above all. This is of course impossible of attainment without an adequate technique.

MUSIC CURRICULUM

THEORETICAL STUDIES

Courses in the theory and history of music will be found listed in detail under the Department of Music in the regular list of college courses in this catalog, page 88.

APPLIED STUDIES

Proficiency in one of the following departments is a requirement for graduation. To secure the Conservatory diploma the work must be concluded by a public recital. If normal study is substituted for the recital in the senior year, and the student shows evidence of the ability to teach his major subject, a certificate is granted. When violin, voice, violoncello, etc., are selected as majors, piano must be taken as a minor until the student is able to play piano music of the third grade of difficulty. If this work has been completed before entrance, credit will be given upon examination.

The number of years required to complete the work in any applied study depends entirely upon the student's ability and previous training. Frequent opportunity will be given to the student to ascertain his standing by examination. In general, these examinations consist of technical demonstrations, the performance of prepared compositions from memory, and the playing of one selection prepared without the aid of the teacher.

PIANOFORTE

It is the aim of the Department of Piano to study the individual needs of each student. In accordance with this policy, students are accepted for private lessons only.

Especial attention is paid to the laying of careful foundations in technical work. Modern principles of relaxation and of good tone production, in accordance with natural laws, are emphasized. Facility and velocity are sought, but the importance of an artistic interpretation is placed above all. This is of course impossible of attainment without an adequate technique.

The student's attention is called to the problems underlying program-making, and his knowledge of piano literature is supplemented by theoretical work.

To secure junior standing in this department, a student should play all major and minor scales in three speeds; scales of double thirds, fourths and octaves, and arpeggios of all triads, diminished and dominant sevenths: Bach, three-part inventions, a Hadyn sonata, compositions by Schubert, Mendelssohn, and others.

For senior standing, a greater speed and facility is demanded in all technical work. Scales in double sixths are required; fugues from the *Well-Tempered Clavichord*, a Beethoven sonata, and compositions by Schubert, Chopin and more modern composers are included.

VOICE

Correct placement is the aim of all vocal instruction. The object is to determine the student's normal range and to perfect the even quality of tones throughout that range.

Of special importance is the correct control of the breathing. Careful attention is paid to the diction and enunciation. The vocal student before graduation is required to study an additional modern language in order to cultivate vocal diction in more than one idiom. Study of the piano is also required before graduation, and it is recommended that this be begun early in the course.

Vocal instruction should be directed toward the problems peculiar to the voice and song interpretation; rhythm and phrasing are important in this connection. The song literature of all schools, lieder, arias, ballads and art songs are used in the vocal instruction.

Experience in the University chorus, solfeggio and elementary theory are especially recommended to students in voice.

For junior standing, studies in vocalization from the first books of Concone, Lamperti, Marchesi, Sieber, Vaccai or similar works, are required.

Songs of moderate difficulty in English should demonstrate satisfactory enunciation and range. The senior examination adds advanced vocalization and arias from opera and oratorio in other languages.

For those who wish an introduction to singing, class lessons may be arranged (Voice 101-102, one hour credit) but students are accepted for private lessons at any stage of advancement.

ORGAN

Study of the piano is a prerequisite. Whether the student has fulfilled sufficiently this requirement or not is determined by the teacher in charge, and the department reserves the right to require more piano study of the student who needs such additional work.

The acquisition of a smooth legato style at the organ is an objective aim. The music for advanced study is selected from those composers who are especially idiomatic—Bach, Mendelssohn, Rheinberger, Guilmant, and others. Both the concert types and the more churchly types are studied with a view of proficiency in these directions.

For junior standing, the examinations are based upon the following requirement:

1. Playing a composition previously studied.
2. Playing a selection prepared without the aid of the teacher.

VIOLIN AND VIOLONCELLO

With those entering these departments for the first time especial attention is paid to matters of position, bowing and fingering. The production of a good tone with clear intonation is emphasized from the start.

More advanced pupils are introduced to a wide range of literature. Ensemble playing is encouraged. Students sufficiently

advanced have the opportunity of playing in the University orchestra.

The aim is for a broad musicianship and a high plane of artistic conception and interpretation.

Junior examinations in violin will be based upon technical studies by Mazas (*Opus 36*) Kreutzer, or Fiorillo, and compositions by DeBeriot, Vieuxtemps, Viotti, Rode and Haydn. The senior examination may consist of the *Twenty-four Caprices* of Rode, DeBeriot's *L'Ecole Transcendante* and concertos by Spohr, Mozart and Nardini, together with sonatas by Mozart and Beethoven.

ENSEMBLE

Students who are sufficiently advanced are given opportunity for ensemble work in string and piano classes.

CHORAL ENSEMBLE

According to present custom, Handel's *Messiah* is sung each year at Christmas. In addition, other choral works are given in the spring festival. Mendelssohn's *Elijah*, Rossini's *Stabat Mater*, Verdi's *Manzoni Requiem* and *La Traviata*, Bach's *Passion According to St. Matthew*, Gluck's *Orpheus* and Schubert's *Mass in E flat Major* have been given in recent years.
