Courses of Study.

COLLEGE DEPARTMENT.

Applicants for admission to the Freshman Class, in the following course, are referred to the studies prescribed for the Preparatory Department. In all cases, the preparation of the student for the College Classes, will be determined rather by the quality of the work performed, and the actual knowledge acquired, than by the extent of ground passed over in these studies. In general, every candidate for the Freshman Class must be able to sustain an examination in all the English studies of the Preparatory Department, and, in the ancient classics, through the first two books of Cæsar's Commentaries, three select Orations of Cicero, the first two books of the *Æneid*, the whole of Harkness' First Greek Book, two terms in Owen's Greek Reader, and two books of *Anabasis*. Fair equivalents for these studies will be accepted.

This course is open to all young men, who can present testimonials of good moral character, and, if from other colleges, certificates of honorable dismission.

SCIENTIFIC COURSE.

The special object of this course is to meet the wants of those, who desire to qualify themselves for general business pursuits. It omits the ancient Classical Languages, and provides for only three years of study. Students are, however, allowed to substitute Latin each term for one of the prescribed studies of that term, such as the Faculty may determine. Candidates for the Freshman class in this course, must be prepared for examination in Geography, Arithmetic and English Grammar.

PREPARATORY DEPARTMENT.

This department is intended to prepare students for the Classical Course in the College. It is very desirable that students prosecute these preparatory studies at the University rather than at Select or High Schools, their education thus receiving a completeness which could not otherwise be secured.

No student, in any of the foregoing courses of study, can be promoted to an advanced standing without an examination.

English Course.

The method of instruction in the common and higher English branches has constant reference to the wants of those who design to become teachers in the Common Schools. The studies especially provided for this course are as follows: Arithmetic, *Ray's Third Part*; English Grammar, *Green*; Algebra, *Davies' New Elementary*; English Analysis, *Green*; Physical Geography, *Warren*; Rhetoric and English Composition, *Quackenbos*; Natural Philosophy, *Parker*; Physiology, *Cutter* or *Draper*; Book-Keeping, *Crittenden*; Geography of the Heavens, *Mattison's Burrill*; Botany, *Gray*. Classes in Penmanship, Phonography and Vocal Music, may also be formed at any time, at a slight expense to the student.

Those who do not propose to pursue a regular course, can recite in any of the classes of the Preparatory and Collegiate Departments for which they are prepared, and in which they can maintain an honorable stand'g.

THEOLOGICAL DEPARTMENT.

The course of studies in this department is especially adapted to the wants of that large class of the ministry, who, from age or other circumstances, cannot pursue the regular course in theological institutions. Those already in the ministry, whose early advantages have been limited, will receive instruction in such select studies as their circumstances render most necessary for them; while graduates from the college, who desire to spend one year or more in special preparation for the work of the ministry, will find here a range of studies ample enough for their purpose. No charge is made for tuition.

The time that can be employed by those studying in this department is so uncertain, and the degrees of preparation for these studies are so diverse, that a large discretion must be allowed to the Professor in the choice and order of topics to be discussed by each class. The following may serve as an outline of the actual course of instruction:

The Book of Acts, its Analysis and Interpretation. Essays on the Constitution of the Church, its Membership, Officers and Ordinances. The Abrahamic Covenant, and reasons for the rejection of Infant Baptism.

Epistle to the Romans, general Analysis, and Interpretation through the first 11 chapters.

Epistle to the Galatians, and comparison of James with Romans and Galatians.

Epistle to the Hebrews. Suggestions on Interpretation and Essays on Inspiration.

The Being and Attributes of God. Fall of Man. Redemption and Atonement. Work of the Holy Spirit in Salvation. Nature of the Sinner's Helplessness. Responsibility. The Future State.

Plans of Sermons. Preaching. Pastoral Duties. Church Discipline.

In addition to the above, students in this department have the privilege of reciting with the Senior Class in College in Natural Theology, Butler's Analogy, Evidences of Christianity and Moral Science. Instruction is given also in Hebrew to those who desire it.

In addition to the foregoing courses of study, Lectures are delivered to all the students, on Wednesday afternoons of each term, by members of the Faculty in turn, the object of which is to give instruction in different important elements of Literary, Scientific and Historical knowledge, and to discuss general questions of Education and College Life. A partial knowledge may thus be secured by the students of several branches of study not included in the Catalogue.

GENERAL INFORMATION.

LOCATION AND BUILDINGS.

The University is located at Granville, Licking County, O., $3\frac{1}{2}$ miles north of Union Station, on the Central Ohio Railroad, and 6 miles west of Newark, in one of the most beautiful and healthful portions of the West, and in a community distinguished for intelligence and morality.

The buildings consist of one brick edifice, one hundred and thirty-three feet long, and four stories high, containing four recitation rooms, library, cabinet, and rooms with double apartments for the accommodation of about seventy-five students, and a frame edifice, containing single rooms and capable of accommodating forty students.

Students are also permitted, at the discretion of the Faculty, to obtain accommodations at private families in the village.

EXPENSES.

The tuition in the College Department is \$10.00 for the first term, and \$12.00 each for the second and third terms, and in the Preparatory Department \$7.00 for the first term, and \$9.00 each for the second and third terms. The charges for incidental expenses are 75 cents for the first term, and \$1.00 each for the other two terms.

Room rent in the brick edifice is at the rate of \$10.00 per annum, and in the frame edifice at the rate of \$6.00 per annum.

Bills for the above expenses are payable at the commencement of each term.

There is no boarding house connected with the Institution. Good board can always be obtained in respectable private families. Students who room in the frame building, are permitted to board themselves, if they so desire. The price of board, following the general advance in prices, ranges at present from \$2.75 to \$3.00 per week.

The College furnishes for the rooms stoves and bedsteads. All other furniture for rooms, fuel, lights, books, stationery and washing, the students provide for themselves. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

Text books and stationery can always be found in the village or at the University.

LIBRARIES AND CABINET.

The University and Society Libraries contain about 9,500 volumes. The University Library is open every Saturday to all the students.

The University also possesses a valuable Cabinet of minerals and fossils, which is sufficiently extensive for all purposes of instruction. Donations of curious and useful specimens are earnestly solicited.

SOCIETIES.

There are two Literary Societies connected with the College Classes, the Calliopean and Franklin, which have their own halls, and each a carefully selected Library of from 1600 to 1800 volumes.

Connected with the Preparatory Department, there is a Liter-

ary Society, the Ciceronian, which has also a furnished hall and the beginning of a Library.

The Society of Religious Inquiry has provided a Reading Room, furnished with papers and other periodicals, which is free to all the students.

PUBLIC WORSHIP.

Punctual attendance of all the students is required at morning prayers; also upon Divine Service twice on the Sabbath at the Church selected by their parents or guardians. If no preference is expressed, it is understood that the students will attend with the Faculty at the Baptist Church, unless excused by the President.

DISCIPLINE.

The officers have their rooms in the College edifices, and during hours appropriated to study, maintain quietness and good order in the halls and over the premises. They also keep a register, showing the absence of each student from all the exercises upon which his attendance is required; also his degrees of excellence or deficiency in each performance, and his general deportment. This, if requested, is, at the close of the term, transmitted to parents or guardians, and is open at all times to their inspection.

BENEFICIARIES.

Students who have the ministry in view, if without means of supporting themselves, are admitted as beneficiaries of the Ohio Baptist Education Society, by which Society they are furnished with free tuition and from \$75 to \$100 per annum.

DEGREES.

BACHELOR OF ARTS.—The Degree of Bachelor of Arts is conferred on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same.

BACHELOR OF SCIENCES.—This Degree is conferred on those persons who have completed in a satisfactory manner the scientific course of studies in this University, and sustain a creditable examination in the same at the close.

Candidates for these degrees are required to pay to the Treas-

urer their dues, including a graduating fee of five dollars, and present a certificate of the same to the President, as early as the Monday before commencement.

MASTER OF ARTS.—Every Bachelor of Arts of three years or longer standing, who has made suitable advancement in the Arts and Sciences, or in any of the learned professions, may receive the Degree of Master of Arts, on the payment of a fee of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to the commencement.

ADVANTAGES.

The special advantages furnished by Denison University are, an honorable history of more than thirty years, a thorough and comprehensive course of study, peculiar freedom from incentives to dissipation, a constant activity of Christian influences, cheapness of living, beauty and healthfulness of situation, and the stimulating presence of other schools.
