**Statement of Purpose**

*Episteme* aims to recognize and encourage excellence in undergraduate philosophy by providing examples of some of the best work currently being done in undergraduate philosophy programs around the world by offering undergraduates their first opportunity to publish philosophical work. It is our hope that the journal will help stimulate philosophical dialogue and inquiry among students and faculty at colleges and universities.

*Episteme* will consider papers written by undergraduate students in any area of philosophy; throughout our history we have published papers on a wide array of thinkers and topics, ranging from Ancient to Contemporary and philosophical traditions including Analytic, Continental, and Eastern. All papers undergo a process of blind review by the editorial staff and are evaluated according to the following criteria: quality of research, depth of philosophical inquiry, creativity, original insight, and clarity. Final selections are made by vote of the editors and the editorial board.

Please see the Call for Papers in the back cover for information on submitting to our next volume.
