To A Conference On

WOMEN AND DEVELOPMENT: GRASSROOTS TO GLOBAL

Saturday, March 9, 1985

Fellows Hall, Denison University, Granville, Ohio

As we come to the end of the United Nations Decade for Women, we want to take a look at the issue of development and to assess the effectiveness of specific projects both in the U.S. and abroad. To do this we will feature keynote speakers with expertise in development as well as a panel of women who have been involved in projects.

After lunch together on the campus, we will continue into the afternoon with small group options. The session will close with a total group event which points the way to the next decade.

While most of us won't be going to the World Conference on Women in Kenya in July, we can come to this feed-in conference. Information gathered at this conference and others like it will be brought together at a national conference in April and sent with delegates on their way to Nairobi.

Please complete the enclosed registration form and return it immediately. We look forward to your input into the conference.

Dear Judith:

Now that commencement is behind us, I am catching up with correspondence which has accumulated in recent weeks. Among the letters waiting to be answered is yours of May 6th.

My sense is that the March 9th conference on women and development here was certainly worth doing, though more work than I had previously imagined. I think that the style which your staff/volunteers employ is probably most effective with community members. As Margot and I predicted, faculty in general tended to be much more appreciative of the formal addresses and panel presentations than of the informal discussions, video-tape, and small group sessions. The style of the discussion format (pre-determined questions, debriefing, etc.) was criticized by some as being too simplistic to get at the heart of the very complicated issues being discussed.

The balance of information on development projects both here and abroad served as an important way of reminding conference-goers that development is a global issue. Your staff and volunteers certainly were energetic, gracious, and cooperative. It is an important task that you have taken on. I am glad to hear that your Wingspread Conference went well. It will be interesting to see the report from your survey.

Give my regards to those whom I have met. I wish you continued success in your work.

Sincerely,

Mary Schilling

Dear Elsa:

Now that I have recovered from one of the busiest weeks of the semester, I want to write and thank you for your participation in our recent conference on Women and Development.

I am especially appreciative of your responding to a last-minute invitation and for being adaptable to the cooperative venture that we found ourselves in with the Institute of Cultural Affairs.

It is my feeling that the academy has a responsibility to the society to lend its expertise and its cooperation in bringing important issues such as women and development to the public. I consider the conference an important contribution to the community as well as an interesting experience for our own faculty and students.

I have requested a check for your honorarium and expenses and am forwarding them to you.

Good luck to you in each of your endeavors.

Cordially,

Mary Schilling
