PUBLIC LECTURE
GUERRILLA GIRLS

Here's what the New York Times said about these social critics: "The Guerrilla Girls took feminist theory, gave it a populist twist and some Madison Avenue pizazz and set it loose in the streets." As the self-appointed "conscience of the art world" the NYC-based artists and art world professionals are known as much for their scathing posters criticalizing the exclusion of women and people of color from the big league art scene as they are for their public persona. Appearing anonymously in gorilla masks, the girls delight in poking fun at gender stereotypes, affecting a pseudo-feminine style in much of their discourse. The appearance of the Guerrilla Girls at Denison will involve a poster exhibition, public lecture and slide show. At the time the calendar was going to press the final details of their appearance were not finalized, so watch for further publicity. Women's Programs

PUBLIC LECTURE
MARCIA ANN GILLESPIE: "Sexism and Racism"

Marcia Ann Gillespie, the former editor of Essence, is much acclaimed for her efforts to inspire people of all races to achieve a common ground on which to battle the growth of hatred and violence in our society. In her program, Ms. Gillespie offers examples of racism and sexism and shows how we are all prejudiced. More importantly, she offers ways to overcome these conditioned thoughts and feelings, a necessary first step to free our communities.
